Description	Discover the many faces of Geneva, a city where centuries-old secrets meet global influence. On this 2-hour walking tour, step back in time and follow the traces of a past that still lingers in its streets today. Leave the classic routes behind and dive into the heart of the city, heading towards the shores of the lake. Ahead of you, one of Geneva's most iconic panoramas unfolds, where the calm of the waters contrasts with echoes of a far more turbulent history. A perfect introduction before setting off to discover a more secret and unexpected side of Geneva. Wander through cobblestone streets, hidden passageways, and quiet courtyards, and admire the centuries-old architecture of Saint-Pierre Cathedral. Explore the darker side of the Old Town, where intrigue, ambition, and conflict shaped the city over centuries. Here, Geneva's past comes alive through stories you won't find in guidebooks. Deep within the Old Town, uncover the secrets of the Bishop's prison. But Geneva is also a city of resistance: relive the legendary Escalade, when its citizens rose against invaders in a single winter night to defend their freedom and independence. As the streets open onto sweeping viewpoints, the narrative expands beyond the Old Town. Admire stunning views over Lake Geneva, where the iconic Jet d'Eau rises into the sky, and discover the surprising story behind it. Pass the famous Flower Clock, a living symbol of Swiss watchmaking heritage and creativity. Beyond its history, Geneva stands as a global hub of diplomacy. Learn how the city became a center for peace, negotiation, and international cooperation, home to institutions such as the United Nations. This is more than a walk through history — it's a journey through the hidden layers of Geneva, where every street reveals a new perspective on the city. After the tour, you may extend your experience with a sightseeing bus through the international district, a relaxing lake cruise for an up-close view of the Jet d'Eau, or a make-your-own fondue experience.
